ANNEXES 1 - set of 5
photographs

50X1-HUM

[] the following photographs of the harbor installations and of new ships under construction in the Warnow shipyard were taken:

50X1-HUM

Picture No 1 shows the fitting-out basin of Warnow shipyard; freighter type IV, presumably FRIEDEN, to the left; type IV, presumably VOELKERFREUNDSCHAFT and JURY DOLGORUKI in the background, and, in front of it, a floating crane under construction for the USSR.

Picture No 2 shows two other freighters of type IV, FREUNDSCHAFT to the left and SOLIDARITAET to the right.

Picture No 3 shows the cable crane installation of Warnow shipyard; two freighters of type IV under construction to the left; two coal and ore carriers of 7,000-ton type to the right.

Picture No 4 shows the two freighters of type IV, FREUNDSCHAFT and SOLIDARITAET, and fitting-out halls to the left.

Picture No 5 shows the cable crane with new buildings, sideslip installation to the left in front, and a shipbuilding hall in the background.

[] Comment. Picture No 3: There were no indications as to construction work for a dry dock, which is to be built north of the cable crane installation (see picture, to the right).

50X1-HUM

The freighter type IV, in the most advanced stage of construction, lying at the southernmost left building slip is presumably the vessel BERLIN which was launched [] The new ship, the keel of which has just been layed, and which is berthed beside the freighter type IV, presumably is No 7 of the same type.

50X1-HUM

The coal and ore carriers will have a size of 126 m in length, 17 m in width and 7,37 in depth and will be equipped with a 5500 HP-MAN-motor and will have a speed of 14,5 knots. For photographs, see Annex.
